

Permits & Licenses

Building Permits

The City of Crandall requires building permits for most remodel and additions to your property. The city will review construction plans, issues permits, and perform inspections to ensure building projects are built safely and in compliance with state and local codes and regulations helping to create a vibrant, livable, and safe-built community.

Whether you are remodeling a home, building your dream house, or constructing a high-rise building, we look forward to serving you.
